

## Sponsorship

CONCEPTION IS A MATTER OF CONNECTION -Dan Zandra

s.p.a.c.e. would like to take this opportunity to thank those organisations that have supported us thus far and encourage those organisations that could help us in the future. s.p.a.c.e., being a social enterprise, is proud to be moving in the direction of sustainability of both our team and our finances. This would not have been the case without the trusting and supportive role that our corporate sponsors have shown us to date.

s.p.a.c.e. is the portal for Brisbane corporations to be connecting with their communities making their corroborate social responsibility meaningful.

Arkheifield Architecture have been working with s.p.a.c.e in 2007. The work they have contributed to s.p.a.c.e is overwhelming. Hours of time and resources have been committed to s.p.a.c.e and the development of our building. Special thanks to Karen Ognibene for her outstanding sense of altruism throughout this project.

Design Action are a subcommittee of the Design Institute of Australia and were formed to assist with not for profit ventures such as our own. Their work allows us to design and create functional and beautiful environment everyone can feel safe and supported to enjoy. Special thanks to Aimee Turner for seeing the need for Design Action in her community.
