

What We Offer

At the present s.p.a.c.e offers a vision. s.p.a.c.e is about activating inclusive communities through socially responsible, innovative and community driven projects. Our demonstration project, s.p.a.c.e Kenmore, is a community centre with a special interest in special needs.

The focus of this project is inclusivity in community programs and facilities. At s.p.a.c.e we believe that all community facilities should be available for use by all members of the community regardless of their limitations. As well as this we believe that all members of the community should have the opportunity to participate in community programs and projects.

s.p.a.c.e is excited to be exploring some new projects throughout 2010:

We are in the midst of creating an online s.p.a.c.e where the community to come to discuss and learn about inclusive community practices through an online environment.

We are also building a team who are building a magazine called "Shift". Shift is about exposing and exploring what inclusive communities look like, how their created and who creates them.

Do have a project you would like s.p.a.c.e to collaborate on? Are you interested in getting involved with our already existing projects? Don't delay. Get into s.p.a.c.e TODAY!
